

Safe Work For All

Set the Standard, Beat the Heat

Too hot to work? **You're not alone.**

247,285 New Mexico workers are at risk of heat-related illness or injury.

Real Stories From New Mexico Workers:

Store workers left in 98 degree heat with no cooling

Waste workers denied water and gear

Farm workers in hot conditions for long hours

High school workers exposed to heat with no water

New Mexico can lead with a state heat safety rule.
Breaks. Water. Shade. Training. Safety. It's common sense and will save lives.

Speak Up for Worker Safety

Public Comment Period: April 1 - May 30
